

Effective use of LMI (Labour Market Information)

LMI is central to **career decision** making. However, on its own it may not be helpful. It only becomes helpful if the information is meaningful to the client and they understand how to use it to meet their needs. Further, they need to be motivated and confident in its use.

This course focuses on the **quality** and **reliability** of sources of information and how it can be best used effectively to help the clients **progress** into learning and work.

Our LMI course covers:

Defining LMI

The changing labour market

Sources of LMI

Quality in relation to LMI

Using LMI to enhance advice and guidance delivery

The course is mapped against the LMI units of the QCF level 6 and an assignment is available to enable participants to meet the assessment criteria.

There are two options available:

Course costs **£150.00** per person or

Unit accreditation of Unit 6 of the QCF Level 6 Career Guidance & Development **£325.00** per person

'The knowledge and application of CLMI is a core part of a careers professional's competencies and central to ensuring young people and adults are provided with a high-quality service

***The Task Force concluded that careers professionals need to build closer links with the labour market and undertake CPD which increases their knowledge of labour market opportunities locally, regionally, nationally and internationally.'* ***

** (Careers Profession Task Force (2010): Towards a strong careers profession)*
