Finding more to do this summer

Young people can now find lots to do over the summer holidays, as a locally managed website provides access to a wide range of activities going on in their area.

The Activities 4U website is provided by local youth services and Connexions Leicester Shire. By visiting the www.activities4u.org website young people can find up to date information on holiday activities as well as year-round youth clubs, sports, dance, music, drama activities and much more!

Jo Pudney, Activities4u Project Manager from Connexions Leicester Shire said: "The website is constantly being updated to provide young people with easy access to the latest information on activities in their area."
